

FOLLOWS PLANS IN RESOLUTION

Assemblyman Ledvina Acts Upon The Idea
Of Tariff Revision In Today's Session.

NOW WOULD PETITION ROOSEVELT

Seeks To Have Special Session Of Congress Called To
Settle The Question As Soon As
Possible.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 15.—Assemblyman Ledvina followed his tariff revision campaign today with another joint resolution, this time memorializing the President and Congress for a special session. A similar resolution was introduced by Assemblyman Miller.

Abolish German
Assemblyman Bancroft offered a measure to require the university regents to abolish all German, Latin, Greek or other foreign language requirements for entrance in university. This proposition is obnoxious to the university faculty and other educators.

No Faith
Speaker Ekern proposes not to trust the coming legislature to maintain the merit system of appointing to state service, introducing a proposal for a constitutional amendment to write the merit system in the constitution and thus remove it from the power of the legislature to change it.

Typewriter Ribbons
—So small an item as the ribbons for legislative typewriters was a subject of debate in the senate, but Senator Bird won, maintaining his principle that the clerks who are paid \$4 a day or more and are required by law to furnish their own typewriters should furnish the necessary ink ribbons. The assembly resolution for the state to buy the ribbons was killed.

Other Legislation
Madison, Wis., Feb. 15.—Senator Rummel, social democrat of Milwaukee, introduced a bill yesterday afternoon to provide for the election of an attorney for the poor, called in the bill a "public defender," to be elected with other county officers and hold office for two years. The title of the bill sets forth that it is a proposition to abolish costs in courts in certain cases in obedience to the constitutional mandate that justice be free. The measure will give the county board the power to provide and fix the salary of the public defender and provide one or more assistants as necessary. It shall be the duty of this officer, who must be an admitted attorney, to appear in and prosecute all cases brought for the recovery of wages where the amount is \$75 or less, also actions for damages for those who are too poor to hire legal assistance, also to defend and give legal advice to the poor and appear in court whenever the judge deems it necessary.

Senator Hudnall introduced a bill to create the towns of Hawthorne, Solon Springs and Highland in Douglas county.
A bill by Senator Lockney proposes to amend the inheritance tax law to provide that the "wife or widow of a brother, or the husband of a sister"

shall pay an inheritance tax of 1 1/2 per cent.
By request of the county board of Waukesha, Senator Lockney introduced a bill to allow the judge of the western Waukesha municipal court to appoint a deputy clerk in each town, the deputy to receive 50 cents for each case.

Public Utility Condemnation
Senator Lockney introduced a bill to enable cities and villages to acquire by condemnation public utilities after favorable referendum vote.
Senator Roehr introduced a bill to facilitate the payment of claims of undertakers and others for funeral expenses, in the process of settlement of estates of deceased persons.

A bill of Senator Roehr would increase the number of trustees of the Congregation Emanuel El, Milwaukee, from nine to fifteen, and raise the limit of property to be held from \$50,000 to \$100,000.

Senator Whitehead introduced a lengthy bill to revise the procedure of eminent domain.

Important Forestry Measure
Five bills came from the committee on forestry: To forbid county boards from leasing swamp lands for cranberry and other purposes north of town 34; to give the commissioners of forests first chance to acquire "tax title" lands; to provide a procedure for the appraisal and sale of lands on Indian reservations; to provide instruction in forestry at the state university; to exempt from taxation for 30 years lands planted with forest trees. These tracts shall not be greater than 40 acres per proprietor and must be planted with at least 1,200 trees per acre.

Not His Two-Cent Bill
Senator Stout does not want to be understood as introducing a bill for two-cent passenger rates. He asked and received permission to withdraw such a bill which had been introduced for him from the committee on revision. He explained that the bill belonged to Assemblyman Stout, had been introduced by its proper owner in the assembly and had come to the senate by mistake.

Senator Wright said he was recorded as having introduced a bill changing the fish and game laws, but had not intended to do so. He wanted the father of the measure to own up to it or have the bill withdrawn. The matter was laid aside and will be corrected.

The resolution of Senator Hustling, looking toward united action by a sufficient number of states to secure a change of the federal constitution for direct popular election of United States senators, was reported by the revision committee in the form of a joint resolution, in which form it must be in order to accomplish the desired result.

WOULD UPSET WORK OF A GRAND JURY

Attorneys for the Defense Says That
They Have Done Nothing
But Draw Pay.

[SPECIAL TO THE GAZETTE.]
Fond du Lac, Wis., Feb. 15.—Attorney Sweet in the Clara Stewart disorderly house graft case this morning said the grand jury has had no other purpose but to draw its pay and has been sitting "doing nothing most of the time." He plans to knock out the whole grand jury proceedings.

STABS HIS FATHER BECAUSE HE SCOLDED

Insane Youth Stabbed His Father
When Reproved for Breaking
a Shaving Mug.

[SPECIAL TO THE GAZETTE.]
Neillsville, Wis., Feb. 15.—John Dunn, aged thirty-nine, while insane, stabbed his old father to the depth of six inches with a butcher knife, after the latter had called down the former for breaking his shaving mug, on Thursday evening. Dunn has been sent to the Mendota asylum and his father may not recover.

NO DEBATE UPON A LEADING QUESTION

Diplomatic and Consular Appropria-
tion Measure Passed With-
out Debate.

[BY ASSOCIATED PRESS.]
Washington, D. C., Feb. 15.—The house today, without debate, agreed to the conference report on the diplomatic and consular appropriation bill.

Put It Off
The house committee on ways and means decided today to indefinitely postpone the consideration of the Williams bill for reciprocal of free trade in coal between the United States and Canada.

Coal Lands
A bill conforming in measure to Roosevelt's recommendation for leasing coal lands by the government rather than their sale, was decided upon today by the house committee on public lands.

Only One Boat
The house this afternoon defeated a motion of Burton of Iowa eliminating one of the two battleships of the Dreadnought type provided for in the naval appropriation bill.

FOOTVILLE TO HAVE AN EQUITY SOCIETY

Efforts to Organize Will Be Made at
Mass-Meeting, Called for Next
Tuesday.

Farmers of Footville and vicinity have been called to a mass-meeting, to be held in the Footville Hall, Tuesday, February 19, for the purpose of organizing a branch of the American Society of Equity. A representative of that association, E. H. Holmes of Milton, will be present and speak on "How to Secure Profitable Prices for All Farm Products." He will fully explain market conditions and show how the society proposes to control prices. All farmers, their wives and children are invited.

BUST!
\$800,000,000 in appropriation bills will be passed by the present Congress.—News Item.

STANDARD MOVES TO QUASH INDICTMENTS

Attorneys For Oil Trust Argue That
Findings Are Vaguely and Im-
properly Stated.

[SPECIAL TO THE GAZETTE.]
Friday, Feb. 15.—This is the date fixed for argument on the motions to quash the indictments recently found against the Standard Oil company of Ohio, John D. Rockefeller, the Buckeye Pipe Line, the Ohio Oil company, and the Solar Refining company. Counsel for the defendants maintain that the indictments are indefinite and are not made with sufficient certainty to enable the attorneys to properly prepare a defense and are in a single count while several offenses are charged.

ENGLISH LEMON FOR AN AMERICAN TRUST

Leather Company Forced to Pay on
Glucose Used to Make Product
Heavy.

[SPECIAL TO THE GAZETTE.]
London, Feb. 15.—While the American leather trust, so called, is having its own troubles at home, more trouble is brewing for it on this side of the water. Custom house officials at various ports have just discovered that the leather exported to this country from America is being adulterated by glucose. Leather is sold by weight, and the American exporters, it is said, have been in the habit of adding to it from fifteen to thirty per cent of glucose with the object of increasing the weight. As glucose is a dutiable article, large consignments of glucose-leather have accordingly been held up at various ports, and the importers may have to pay duty. The London leather merchants declare that the question is likely to have a serious effect on the price of leather in the near future. More than half the leather imported into England comes from the United States, and the leather trust is accused by the British merchants of resorting to the "sugaring" process in order to increase its already enormous profits.

INJUSTICE DONE WAREHOUSE MEN

NEW REVENUE RULING MAKES
IMPOSSIBLE DEMANDS.

PRIVATE-BUSINESS EXPOSED

Janesville Tobacco Dealers Have Pro-
tested to Wisconsin Senators—
Answers to Communications.

Under a recent ruling of the Commissioner of Internal Revenue for the United States demands are made on all tobacco warehousemen which are considered by Janesville dealers to be unjust and in many instances impossible. The regulation, which was to go in force the first of the present year, was so strongly objected to that it is now pending investigation. If the department finds the contents of the dealers justifiable the ruling may be withdrawn or modified. The local dealers' association has communicated with both Senators Spooner and La Follette and answers have been made. Spooner says the regulation was made deliberately and hints that any objections will be received by deaf ears. La Follette says he will take the matter up as best he can.

The old revenue regulation demanded that each dealer keep a record of all tobacco received and sold, giving the names of the persons it was secured from and the names of the purchasers. The record was kept in pounds and cases. No matter how many warehouses a dealer owned the record was kept at the main office. The new regulation demands that a separate record be kept at every warehouse, making every dealer qualify as such at every building. The record must also show whether the tobacco was in bundles or cases and whether it was stemmed or unstemmed. Thus a dealer's bookkeeping is made burdensome. Not only are the number of books increased but private business deals are exposed for every change made, while the leaf is in storage, will have to be recorded.

LOCAL PARAGRAPHS.

Coloring Not Artificial: Atty. L. E. Gettle who with Atty. John Olin represented the State in the oleomargarine case of the State vs. Meyer & Nowack which Judge Grinn decided in their favor yesterday, was in the city today. "Our effort was to show," he said, "that under the statute Swift & Co. were liable for selling yellow oleo, whether it was artificially colored or not. Our chemist found that by using a large percentage of oleo oil extracted under high pressure and decreasing the value of the product as food in other ways, the yellow color had been obtained without resorting to any specific dye. First class oleo should be nearly white."

Family Jar on Farm: There was another family jar on the Fred Bass farm in the town of Janesville, this week and as a result thereof Mrs. Bass has gone to visit with relatives in Palmyra. Before departing from Janesville, however, she persuaded Sheriff Fisher to go with her to her home in anticipation of trouble in getting her clothes. None developed and the squall will doubtless blow over in the course of a fortnight. Mrs. Bass' departure from home without his permission and the locking of the doors by her husband upon her return appear to have been the original causes of the trouble.

\$30,000 STOLEN BY QUEEN OLGA'S MAID

Grecian Consort's Jewels Were Taken
and Replaced by Imitations From
Thief's Sweetheart.

[SPECIAL TO THE GAZETTE.]
Vienna, Feb. 15.—A dispatch from Athens says a great sensation has been created in that city by the robbery of \$30,000 in jewels belonging to Queen Olga of Greece. A maid servant has been arrested, and had confessed that on various occasions she took precious stones and valuable medals. These she gave to a German goldsmith who was her sweetheart, and he replaced them by counterfeits to delay the discovery of the thefts. All efforts to find the goldsmith have so far been fruitless and it is believed by the authorities that he has made good his escape to America.

Richmond, Va., Feb. 15.—At Farmville today James Hill and Wm. McInnis, two negroes convicted of murder, were hanged. Hill weighed 275 pounds and the rope broke, but he walked calmly back to the scaffold and when it broke the second time he died in agony on the ground.

Gridley Club Banquet:
Ionia, Mich., Feb. 15.—Arrangements on a scale more elaborate than those of any previous year have been completed for the annual banquet tonight of the Gridley Republican club of this county. The yearly functions of this organization always attract a large attendance of party leaders and the banquet tonight will be no exception to the rule. The eminent speakers to be heard include W. F. McLean, editor of the Toronto World; Charles E. Whelan, of Madison, Wis.; and Governor Warner of Michigan.

WOULD PROVE THAW INSANE IS THE PLEA OF JEROME

This Would Mean That He Was Sent To
Asylum For The Criminal Insane
By Judge.

[BY ASSOCIATED PRESS.]

New York, Feb. 15.—Close observers of the Thaw trial believe the present trend of the trial as shown in the last two days is toward a commission in lunacy to determine officially Thaw's condition of mind. This belief was suggested by District Attorney Jerome's apparent willingness to admit a part of the will, by his

readiness to withhold technical objections to the testimony of Thaw's family physician tending to throw light upon the defendant's mental status; and by his policy yesterday in admitting without opposition the conversation between Thaw and Dr. Evans, when the latter examined the prisoner in the Tombs. The counsel for Thaw is planning to fight Jerome on this line.

REWEIGHING OF MAILES IN MIDDLE WEST BEGUN

Revenue For Railroads May Be Reduced Be-
fore New Tonnage Scale Is
Adopted.

[SPECIAL TO THE GAZETTE.]

Chicago, Ill., Feb. 15.—The reweighing of the mails, which takes place every four years to determine the amounts to be paid by the government to the railroads, was begun today in the sixth district and a portion of the seventh district. The sixth district comprises all of the territory east of the Missouri river up to a line drawn through Chicago and St. Louis.

Five Hundred men are engaged in the work of reweighing. The task will occupy about 112 days, during which time all of the mails which are put on and all which are taken off of all established routes will be carefully weighed. Out of the reweighing period there will be a total of ninety working days, and the total tonnage of each route for the entire reweighing period will be divided by ninety, the working days, in order to determine the average tonnage carried per day.

Upon this tonnage so determined the pay is scaled and when fixed will remain the rate which the railroads shall receive until the mails are reweighed four years hence.

The railroad-managements are considerably exercised over the probability of a decrease in the rate owing to the recent recommendation of the congressional committee. The minimum pay is for 200 pounds or less, for which \$42.75 is allowed at present for carrying it one mile every day in the year. The pay is on a descending scale as the average weight increases until for 5,000 pounds or more daily \$21.30 per ton is allowed.

By recommendation of the congressional committee there will be a 5 per cent decrease in the pay for routes carrying from 5,000 pounds daily to 48,000 pounds, which would reduce the pay on this kind of a route from \$21.37 to \$18. On routes carrying an average of between 48,000 and 80,000 pounds there will be a decrease of 10 per cent.

The proposed reductions in the rate would decrease the revenue on a single railroad route between Chicago and the Missouri river about \$100,000 annually. The total reduction on some of the large railroad systems would amount to several hundred thousand dollars a year. The railroad officials declare that they cannot stand the reduction; and that if the recommendation becomes a law there is bound to be a corresponding reduction in the service.

SUFFRAGISTS HONOR DECEASED CHAMPION

Convention Business Suspended and
Memorial Exercises For Miss Su-
san B. Anthony Held.

[SPECIAL TO THE GAZETTE.]
Chicago, Ill., Feb. 15.—There was an almost total suspension of business today at the convention of the National American Woman Suffrage Association. By previous arrangements the greater part of the day was given over to exercises in memory of Susan B. Anthony, the great pioneer of the woman suffrage movement in America, who was born eighty-seven years ago today and who passed from life March 13, 1906. Another earnest worker in the equal suffrage movement recently passed away was Isabella Beecher Hooker, whose life and work were likewise eulogized by the speakers. Words of praise were also said for Miss Mary Anthony, sister of Susan B. Anthony, who died at the Anthony home in Rochester two weeks ago.

The principal speakers at the memorial exercises were Mrs. Mary Wright Sewall of Indianapolis, Mary T. L. Gansett of New York, Harriet Taylor Upton of Ohio, and Rev. Jenkin Lloyd Jones.

At Miss Anthony's Grave.
Rochester, N. Y., Feb. 15.—The grave of Susan B. Anthony in Mount Hope cemetery was covered with many handsome wreaths today on the occasion of the birthday anniversary of the great equal suffrage leader. The tributes were sent by friends and admirers in many sections of the country. The grave of Miss Mary Anthony, who died recently, and was buried beside her more famous sister, was also decorated with flowers.

BRAKEMAN HURT IN FALLING FROM CAR

Edward Damon, Employed on North-
Western Road, Sustained Bad
Cut on Right Foot.

In attempting to walk over a car of coal to a caboose in the local railway yards this morning, Edward Damon, of 5 Prospect avenue, lost his footing and fell onto some broken glass, sustaining a bad cut on the right foot. The glass gashed through a heavy rubber and leather shoe and inflicted a wound that demanded the attention of a physician. Mr. Damon is a brakeman and will be compelled to be off duty for a time.

CHAS. REYNOLDS TO LEAVE JANESVILLE

Has Resigned Position with Janes-
ville Machine Co. and Will Enter
Employ of Burroughs Co.

The Janesville Machine Co. has accepted with regret the resignation of Charles H. Reynolds who has been in charge of the transfer business and the 12 branch houses which handle it, as well as the advertising work of the concern. Mr. Reynolds' connection with the local firm will end tomorrow evening and on Wednesday next he will enter the employ of the Milwaukee branch of the Burroughs Adding Machine Co. His work will be confined to the state metropolis for six weeks or more, after which he expects to go on the road with possibly Wisconsin and Michigan as his territory. The inducements held out to Mr. Reynolds are unusually attractive and while regretting to lose him as a resident here, his many friends will rejoice in the advantages and bright prospects which call him hence.

BREAD SUPPLY OF WORLD ASSURED BY RECENT DISCOVERY

Nitric Acid, Necessary in Wheat Grow-
ing Land, Can Be Manufactured
From Air.

[SPECIAL TO THE GAZETTE.]
London, Feb. 15.—An announcement of a scientific discovery in a number of years has created more public interest than the news that the experiments inaugurated by the distinguished scientist, Sir William Crookes, to obtain nitric acid from the atmosphere had been crowned with success. The discovery means the assurance of daily bread for generations yet unborn. Wheat—chief source of the staple food of man—requires that it may grow abundantly, nitrogen in the soil. If the nitrogen is used up it must be replaced, or the wheat crop fails. Hitherto the soda-nitrate deposits of South America have been the principal sources of the replenishing agent. They are, however, not quite adequate for the world's needs, and in another quarter of a century will be completely exhausted. If the nitrogenous fertilizer failed, no increase in the area of wheat-growing lands could stave off eventual starvation. But with the discovery of Sir William Crookes that concentrated nitric acid can be made from the nitrogen in the air on a commercial scale the prospect of the soda-nitrate deposits becoming exhausted is no longer a cause for alarm.

Going to the "Prom": In the Janesville representation at the Junior "Prom" in Madison this evening will be the Misses Marcella Jackson, Vera and Elisabeth Wilcox, Flora McLean of Chihuahua, Mexico, and Donald Seals of Birmingham, Alabama.

CONGREGATIONAL
ANNUAL REUNION

LAST EVENING WAS ATTENDED
BY NEARLY 700.

CHURCH MEMBERSHIP 673

After Bountiful Supper W. S. Jeffris'
Merry History of the Year and
Other Talks Were Enjoyed.

Sixty-two candles twinkled on the
mammoth anniversary cake baked by
Miss Marie Gibbs and nearly seven
hundred guests were seated at the
hundred tables in the Sunday school
room of the First Congregational
church at half past six o'clock last
evening. Thirty young men, under
the direction of Fred A. Capelle, served
in faultless style the bountiful sup-
per and afterwards Supt. H. C. Duell,
in a brief but happy post-prandial ad-
dress called attention to the fact that
the sixty-second anniversary of the
church was also the tenth anniversary
of the pastorate of Rev. Robert C.
Denison who preached his first sermon
here on Feb. 7, 1897. As a token,
friends had entrusted him with the pre-
sentation of a set of silver forks to
the pastor and his wife. Acknowledg-
ments followed and this proved to be
one of the many pleasant incidents of
the 1907 Home Gathering.

The program in the church auditor-
ium was opened with an instrumental
number by the orchestra of ten pieces
led by F. F. Lewis. Rev. Denison then
announced another chapter of the
life of the church, "recorded year by
year" by John M. Whitehead who
serves out of a life busy with large
things with a kindness and faithful-
ness which the church appreciates.
Mr. Whitehead presented figures
which showed the total gain in mem-
bership during the past year to have
been 33 and the total losses 13. On
January 1 the aggregate membership
was 665. During the decade commencing
with 1897 the totals for the respec-
tive years had been as follows: 434,
447, 491, 504, 510, 549, 591, 632,
645 and 665. The net gain in 10 years
had been 267. Mr. Denison had grown
ten years younger during this time
and if anyone had ought to say why
the church and this pastor would not
be together another decade, the
speaker insisted that he should rise
and make it known, or forever hold
his peace.

Mr. Whitehead supplemented his re-
port with some thoughtful remarks
on the church as an institution to
which we voluntarily attach ourselves
—with no restraints, no power to lay
hands on a single man, woman, or
child; yet possessed of tremendous
power to protect the uttermost corners
of the earth; and every element of
this power derived its members, their
thoughts, and their acts. This organiza-
tion had built up a membership of
nearly a million in the United States
and at this moment the Congrega-
tional church of Janesville was in touch
throughout the wide world with 32
mission stations where were taught
the same lessons of life which his
hearers were learning. "Were any of
the latter connected with another such
world enterprise? And this organiza-

Turn Your Face
Into Dollars

Many a Man Has Failed Because
His Face Was a Picture
of Calamity.

It takes sunshine to produce a rose,
a perfect rose. And so man, to be suc-
cessful, must have "sunshine" inside.
The life which has it not, which has
no health and no happiness, is sour,
surly, pessimistic and a failure. The
world already has too many vinegar
faces that breathe ill-will and strife.
The world wants joy, comfort, sun-
shine, and will cling to the man who
has it, who radiates gladness and tri-
umph wherever he is and under all
circumstances.

Some people have a genius for seek-
ing out the disagreeable, the crooked,
the bad and the ugly. These are the
destroyers; they travel in schools, they
herd together for they love their kind,
and the cheerful part of the world will
have nothing to do with them.
And why is it that so many peddle
disaster knowing at the same time
that if they do, their lives will be
ruined? Some people cannot help it,
for pessimism usually comes from
bodily disorders, and this cannot al-
ways be prevented. The stomach, for
instance, is the most common cause of
discontent, sour face, recklessness,
disgust and lack of ambition. A bad
stomach—there is the secret of many a
failure. Anyone can have a good
stomach, a strong stomach, a stomach
that can take care of anything and
everything that is put into it, no mat-
ter whether it is a very bad stomach
now or not. Then why not have it?
Stuart's Dyspepsia Tablets do this
very thing. One ingredient of these
little tablets digests 3,000 grains of
food, and no matter how bad is your
stomach, if you take these tablets
they will digest everything in your stom-
ach, thoroughly and completely, and
better and quicker than a healthy
stomach can do the same thing. Stuart's
Dyspepsia Tablets will cure quickly
loss of appetite, brash, irritation,
burning sensations, nausea, heart-
burn, eructations, loss of vim and spir-
it, bad memory, and dyspepsia and in-
digestion in their very worst forms.

No other little tablets in the world
can do so much. You should carry
Stuart's Dyspepsia Tablets around
with you wherever you go and take
them after meals. Then only will you
realize what it is to enjoy a meal, and
what perfect digestion means. Your
whole body and your mind will feel
the effects; your vim will increase,
you will be more satisfied with what
the world does, you will think happier
and your face will be one of supreme
contentment. That will bring you
success and then more success. Your
face will bring you dollars. Try it. It
will cost you just 50c for a package
of these wonderful Stuart's Dyspep-
sia Tablets, at any drug store on earth.

day and we will at once send you by

tion is possessed of continuity. Gen-
erations after everyone of his listen-
ers were gone, it would be volunta-
rily carrying on its great work. In the
Janesville church during the past year
every theme had been discussed, ev-
ery line of modern thought exam-
ined. No other place had afforded such
an hour that afforded such opportu-
nity for culture, for intellectual improve-
ment and moral betterment as the
church service gave.

Before introducing the next speaker,
Rev. Denison called attention to the
roses, yearly given by Miss Mary
Lewis in memory of her sister and the
white carnations from Mr. and Mrs.
James Harris. These always brought
to him the thought that the church
was one of the places about which,
next to the home, clustered the dearest
thoughts. Letters had been received
from absent members as far as New
York, as far north as Minnesota,
as far west as California, and even
from the distant Philippines. Port-
ions of them were to be printed in the
calendar. One of the things which he
was sure, as a church, all were grate-
ful for was the fact that the best and
most promising reports were heard
of Mr. W. S. Jeffris. He had served
his church almost every capacity
from the superintendency of the Sun-
day school to the washing of dishes
after a Home Gathering and all re-
joiced that he was so near good
health again. The church history was
written by him and his brother, M. G.
Jeffris, read the long story—all writ-
ten in a merry vein and interrupted
at frequent intervals with applause
and laughter.

While in union there might be
strength, the writer feigned to lament
at the very outset the absence of di-
vision in the family which always
tended to make things interesting for
the neighbors. He told about the
fortunes of a choir characterized by
the harmony that often gets into the
singers, "the members of the Loyal
band who had married; a threatened
call for Rev. Denison which had come
up like a cloud and had kept the con-
gregation on the anxious seat for
many days. Through its members the
church had its hand in almost every
pie in the public oven, beginning with
the legislature and ending with the
city council and the schools. Inas-
much as other members were direct-
ing the local business of one railroad,
the street car line, and the inter-
urban, not to mention the Good Roads
movement, the rest of the congrega-
tion would show themselves neglect-
ful of opportunity and prerogatives if
they ever either walked or paid car
fare. Such members as found their
street names not sufficiently aristo-
cratic were gravely referred to Alder-
man Fish and Watt; parties whose
wardrobes needed replenishing to Miss
Grace Valentine and Mrs. Ford of the
Associated Charities; those who had
complaints regarding the neighbor's
treatment of their pets, to Richard
Valentine of the Humane Society.
Feaver of the ladies of this church
were prize winners at the card par-
ties but practice might be relied upon
to correct this shortcoming. In con-
clusion he urged church members to
take all of their domestic ills to the
pastor who was permitted to live too
much in the ideal. "If the husbands
or the wife are sour, ask him why. If
there is anything you don't want to
do, ask him to do it. Go Friday morn-
ing when he is at work on his ser-
mon. He's no came!—don't be afraid
your straw will be the last one. Call
on Mrs. Denison. She is busier than
she seems and yet she has all the time
there is." Mr. Jeffris catalogued
some of the latter's many activities
and voiced a protest that whereas if
Pliny Norcross was elected president
of a Cross-Roads society, or John
Whitehead addressed the Sons of the
Degenerate at Magnolia, or Alex
Matheson attended a lodge session in
Milwaukee, their pictures were always
in the Gazette, Mrs. Denison's like-
ness was yet to appear on the news-
paper page.

On motion, at the conclusion of the
history, a message of appreciation and
gratitude was sent to Mr. Jeffris.
Rev. Denison, asked his flock not to
take too seriously what Mr. Jeffris
had said. The open, frank relations
existing between the parsonage and
church were a source of mutual help
and enjoyment and both Mrs. Deni-
son and himself would always be glad
to do what they could at any time.
He emphasized the importance of the
development of the spiritual nature as
well as the social consciousness. This
spiritual element the completeness of
life demands and the man who is just
"a good fellow" hasn't reached the
top. In conclusion he wished all a
happy year in their homes and hearts
and offered a prayer. Reports of the
various organizations of the church
were distributed in pamphlet form.
Church Treasurer S. A. Jeffris' ac-
counting is concerned with the bene-
volences and not with the finances of
the entire organization which are in
the hands of A. E. Matheson. The
latter's report is read at the meeting
of trustees at the end of the fiscal year
in June. The pamphlets show that
the membership of the church up to
date is 673 and that all of the various
missionary and social organizations
have done excellent work during the
year past and are in a flourishing con-
dition.

DRIVEN INSANE
BY THAW TRIAL

JANESVILLE MAN BECAME VIC-
LINT IN ROCKFORD.

SAID HE WAS STAR WITNESS

Was En Route to New York to Clear
Thaw and Receive \$500,000.
Declared August Ludolph.

August Ludolph, of 404 South Jack-
son street was taken to the Rock
county hospital for the insane last
evening, having been arrested in
Rockford yesterday for violent ac-
tions. It is not yet known whether
his mental aberrations are a result
of an unbalancing of his mind or a
too free communion with the cup that
cheers.

"Expert on Insanity"
"I am on my way to New York to
testify as an expert on insanity in
the Thaw case and I will clear him,"
he said to a Rockford interviewer after
his incarceration in the county
jail as a demented person. "I am
compiling a list of the noted criminals
of the country," he added and with
the announcement, "I have only to
add that of Kid Coburn, (then I was
hung here, was he not?), and then I
will have the list complete," and he
turned to the corridor walk, pushed his
note book against the same and jot-
ted down something, presumably the
name mentioned.

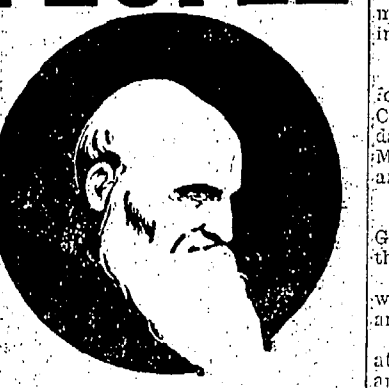

Ludolph, registered at the Chick
House Wednesday night, as from
Janesville. He is twenty-three years
old, was well dressed and seemed that
evening to be in normal condition.
Yesterday morning when he arose
early he developed symptoms of men-
tal aberration in a most pronounced
manner. He declared that he had
only fifteen cents left after drawing
all he had coming from the Janes-
ville wood-working plant, where he
was employed and he claimed that
he had been relieved of his roll by
unlawful means.

Talked Loudly in Hotel.
He refused to wait for the breakfast
he had coming, preferred to discuss
the Thaw case with the waitress and
in voice vehement attempted to con-
vince two traveling men at a nearby
table that Thaw was innocent. When
Ludolph rushed out of the hotel and
made direct for the Berlin saloon a
few doors below. Mr. Chick telephoned
the police and when the latter
reached the saloon the Janesville man
was in the midst of a harangue on
the Thaw case which was interrupted
by the bluecoats taking him into
custody.

Would Share His Bonus
"I am going to get \$500,000 for my
testimony in the Thaw case," he an-
nounced after his incarceration. "I
have already sent each of the six
friends I have made in jail here
as soon as I get the money. All I ask
is a square deal and I will clear Thaw
and have enough money to live on
the rest of my life. As soon as I get
the \$500,000 I will marry a Janesville
girl and move to Rockford and make
my home here. Rockford suits me
in every way."

Not Drunk in Rockford
Ludolph's signature on the Chick
House register looks like Gaslopp, but
he spelled his name as Ludolph to the
reporter. Ludolph was not drinking
to excess Wednesday night and he
did not have time to acquire a beard
this morning before he developed irra-
tional symptoms. The supposition is
that he has read the warier reports of
the Thaw case and other criminal
cases until his mind has been affect-
ed.

Examined Here.
Mrs. Sutherland and Woods exam-
ined Ludolph at the county jail last
evening. They found him to be a
young, unmarried man about 23 years
of age who has been following the
trade of a cabinet-maker in the Forest
City. Save some of his hallucinations
regarding the possession of great
wealth; his declaration that after
praying all night, the Almighty grant-
ed him the education and wit of Ezra
Kendall and that he is going to show
up at the theatre there during the
forthcoming Kendall engagement and
back Ezra off the boards; and that the
Chick House must pay him \$30,000
damages for refusing to give him a
breakfast for which he paid, and the
city of Rockford \$100,000 for falsely
imprisoning him, the man appears to
be rational. Excessive drinking and
smoking are supposed to have been
responsible for his condition, and the
physicians directed that he should be
taken to the county house for a few
days before any final decision with
regard to him should be made.

Medical Services.

[SPECIAL TO THE GAZETTE.]
Brodhead, Feb. 14.—Friends of Mr.
and Mrs. Al Keller who were such
losers in our recent fire showed their
sympathy on Saturday by raising a
neat little sum of money by subscrip-
tion and presenting it to Mr. Keller.
Besides handing the list with ten dol-
lars, Dr. John Fleck made Mr. Keller
a present of a receipt in full for his
doctor bill which amounted to nearly
sixty dollars. It is needless to say
these acts which go to prove the "big
heartedness" of our business men
were doubly appreciated by Mr. and
Mrs. Keller. Mrs. Keller is conval-
escing nicely and other from a nerv-
ous shock suffered no bad results from
her exposure during the fire.

Church's 40th Anniversary
Next Wednesday the fortieth anni-
versary of the Baptist church of our
city will be celebrated. The morning
service will begin at 10:30 and will
consist of historical sketches of the
church and its auxiliary organizations.
A fellowship dinner in Brotherhood's
annex is one of the enjoyments. At
2 o'clock the afternoon session begins
and will consist of a roll call, the
reading of letters from former pas-
tors and members, and the relating
by older members of reminiscences of
former days. The evening session
will be addressed by Rev. J. B. Thom-
as, D. D., of Chicago and will be
open to the general public.

John Woodling of this city and Miss
Iva B. Swale of Durand, Ill., were
united in marriage at the bride's home
on Tuesday, Feb. 12. The young cou-
ple will make their home on the Wood-
ling farm in Spring Grove.

The W. C. T. U. held their annual

Mrs. Geo. Sutherland is quite sick
with stomach trouble.
The large plate glass in the build-
ing occupied by Will Hahn and the
one in the Green County bank were
cracked by the intense heat of the
fire on Friday night.

Carl Marty has gone to Chicago to
take up his new job as bookkeeper
with a large wholesale cheese firm
in that city.

Rev. Catchpole, of Beloit, secretary
of the Children's Home Finding so-
ciety, spent Sunday in our city in the
interest of his work.

Miss Lillie Foote spent Sunday with
Miss Nellie Smith in Whitewater.
Mr. and Mrs. Walle Lewis of Ev-
ansville were over Sunday visitors
with relatives here.

Mr. and Mrs. M. P. Bowen of Mil-
waukee were guests at the home of
Mr. and Mrs. M. Broderick over Sun-
day.

Mrs. J. E. Doolittle has returned
from a four weeks' visit with her son,
Dr. S. W. Doolittle of Lancaster.

A sleighload of merry people en-
joyed a very pleasant evening at the
country home of Mr. and Mrs. Albert

Janesville, Principal Speaker.

[SPECIAL TO THE GAZETTE.]

Milton, Feb. 15.—The annual ban-
quet of the Citizens' association on
Wednesday evening was the most suc-
cessful in the history of the organiza-
tion. About one hundred and twenty-
five were in attendance and all seem-
ed to heartily enjoy the occasion. The
menu, served by the Women's Village
Improvement club, was excellent and
the style in which it was served was
much superior to course service usual
to such functions. While the tables
were being cleared J. W. Johnson
rendered two pleasing cornet solos,
after which President Crosley intro-
duced the speaker of the evening, Al-
exander Matheson of Janesville, who
gave a very instructive and entertain-
ing address on "Higher Civic Ideals."
He was followed by President DeLand,
Prof. A. E. Whitford, Principal W. C.
Bartlett, Rev. A. Hatfield and Rev.
E. A. Platts, all of whom spoke briefly
on topics of general interest.

Memorial Day Committee
President Crosley has appointed the
following committee to represent the
Citizens' association on Memorial
day services: P. M. Green, Rev. A. L.
McClelland, J. B. Tracy, Edwin Shaw
and G. E. Osborn.

Miss Mabel Severance has gone to
Gentry, Ark., being called there by
the illness of her father.

The Seventh-day Baptist society
will lay a new floor in their church
and re-carpet it.

Rev. A. L. McClelland's father died
at his home in Brandon Tuesday, Mr.
and Mrs. McClelland will not return
from there until next week.

Du Lac lodge conferred the first de-
grees on three candidates, Monday
night. Visiting brothers from Milwau-
kee and Milton Junction were in at-
tendance.

Miss Agnes Babcock of the college
faculty was called to Hornell, N. Y.,
this week, where her mother is ill in
a sanitarium. Should the family think
best to remove Mrs. Babcock to her
home at Leonardville, N. Y., Miss
Babcock will not return, otherwise
she will be here next week.

BLOOD POISON

CURE YOURSELF AT HOME

Most persons who are afflicted with Contagious Blood Poison hesitate to go to a physician for several reasons. In the first place, the expense is heavy, and they know that the inevitable treatment will be mercury and potash, strong minerals that act with disastrous effects on the delicate parts of the system, and which do not, after all, really cure the disease. What they want is a safe, reliable treatment that can be taken at home and a perfect cure made of this loathsome disorder without unnecessary exposure or expense. Such a remedy is S. S. S.—it is the only medicine that goes down to the very bottom of the trouble and drives out the last trace of the poison so that there are never any signs of its return. It does not contain a particle of mineral in any form, and after removing the disease from the circulation builds up every part of the system by its fine vegetable tonic properties.

S.S.S.

PURELY VEGETABLE

S. S. S. attacks the trouble at its head and not only permanently cures the disease for the one afflicted, but so purifies the blood that future offspring is insured against infection. S. S. S. may be taken in the privacy of your home and a perfect cure made of this hateful and loathsome trouble. For the assistance of those who are curing themselves with S. S. S., we have prepared a special book on Contagious Blood Poison which contains instructions of great value to all blood poison sufferers. We will be glad to send a copy of this book free, and if additional instructions or advice is wanted, our physicians will furnish it without charge.

John W. Gates

John W. Gates was born in 1855 at what was then called Turner, Ill., but that now forms a section of West Chicago. He was a farmer's boy, and at 15 years of age was man enough to be the engineer in charge of a threshing machine. He turned to railroading, and in '82 he was a fireman on the Chicago and North-Western railroad. In 1880 he started the Southern Wire company in St. Louis on money he had saved. He developed this into the American Steel and Wire company, which went into the United States Steel corporation. Mr. Gates engineered a sensational wheat corner in Chicago during the spring of 1905. Late in April it looked as if Mr. Gates was ruined, but he managed to close out his immense deal at a big profit.

Janesville Daily Gazette, Friday, February 15, 1867.—An Ice Storm.—While the sections of the country south of us are suffering from floods we in this region are having an ice storm, not sufficient magnitude to injure trees, but quite enough to make roads and sidewalks very slippery. The indications now are that if it storms any more it will be rain and not freeze.

Almost a Fire.—Last night about nine o'clock, the chimney on the north-east corner of the Myers House, took fire and for a time there was great danger another disastrous conflagration as the wind was blowing a perfect gale, blowing the whole sheet of flame and sparks back on the roof and cornice of the house. No alarm was given, but a few men went on the roof and in a short time after throwing salt down the chimney the fire died out. Moral—keep your chimneys clean.

Trichina.—One of our physicians being called to attend a family some three or four miles out of the city, where, suffering from illness, thought the symptoms indicated the presence of trichina. He accordingly

Raffles Would Have Humiliated Sherlock Holmes.—"Raffles" is the antithesis of Sherlock Holmes and greater than Sherlock Holmes. Such is the opinion expressed in New York and other American cities of the famous drama, "Raffles: The Amateur Cracksman," in which S. Miller Kent and a splendid company will appear at the Myers theatre Saturday, Feb. 16, matinee and evening. The play was written by E. W. Hornung and Eugene Presbury, who use as a foundation the sketches published in two volumes by Mr. Hornung under the titles of The Amateur Cracksman and Raffles respectively. The authors go to daring lengths, seeming to argue that crime is a disease and that criminals are irresponsible. The adventure of the Melrose diamonds is the one wisely selected for presentation of this argument, and to give to the stage an entirely new and fascinating character in Raffles, the gentleman-burglar-philanthropist. For conflict of forces the authors furnish a specialist in crime who would plunge Sherlock Holmes into despair and make his good friend, Mr. Watson, weak with amazement. This is Captain Bedford, the detective. Raffles and Captain Bedford have it nip and tuck throughout the play, but Bedford is not the only person on the stage whom Raffles foils. First he foils Crawshaw, the bungling original thief of the \$100,000 necklace. Then he foils Crawshaw again when the latter comes to his (Raffles) London apartment to effect a "divvy." Next after foiling Bedford a dozen times, he foils one woman who is infatuated with him. In fact he foils everyone except his friend Bunny and Gwendolyn, the girl who loves him even after she knows the truth about him. We are told that Sherlock Holmes originally was cut out for the part now filled by Captain Bedford, and we shudder to think of the humiliation that surely would have befallen our ideal sleuth if he had been pitted against the dashing, infinitely resourceful and all-conquering Raffles.

WISCONSIN WEATHER FORECAST

Fair tonight and Saturday, cooler Saturday and in western portion to night.

GENERAL TRADE

Trade of the United States with its noncontiguous territories amounted to 131 million dollars in the calendar year 1906, against less than 100 millions in 1904. Of this total of 131 millions, 59 millions, speaking in round terms, was merchandise shipped to those territories, and 72 millions merchandise received from them. In addition to this, there was received from Alaska over 13½ million dollars' worth of gold produced in that territory, and 6½ millions of foreign gold, presumably chiefly from the British territory adjacent. Of the 59 million dollars' worth of merchandise sent to the noncontiguous territories, about 22 million dollars' worth went to Porto Rico, 17½ millions to Alaska, 12½ millions to Hawaii, and 7 millions to the Philippine Islands. The shipments to Porto Rico have increased from 12 million dollars in 1904 to 22 millions in 1906; those to Alaska, from 11½ millions in 1904 to 17½ millions in 1906; those to Hawaii, from 11 millions in 1904 to 12½ millions in 1906; and those to the Philippine Islands, from 5 millions in 1904 to a little over 7 millions in 1906.

The value of merchandise received from Hawaii has increased from 25½ million dollars in 1904 to 29½ millions in 1906; from Porto Rico, from 13 millions in 1904 to 20½ millions in 1906; from Alaska, from 10½ millions in 1904 to 12 millions in 1906; while the Philippine Islands show a slight reduction, the figures of 1904 being 10½ millions and those of 1906 a little over 10 millions in value. Of gold received from Alaska, the total of domestic production was, in 1904, a little over 9 million dollars, and in 1906, 18½ millions, the receipts of domestic gold from that territory having thus more than doubled in two years and being in 1906 2½ times the amount paid for that territory.

Even this growth of 31 million dollars in two years, in the trade with the noncontiguous territories, seems small when compared with the growth which has occurred during the decade. Figures just compiled by the Bureau of Statistics of the Department of Commerce and Labor show that the value of the merchandise sent to Porto Rico in the calendar year 1896 was \$1,955,814, and in 1906, \$21,998,646; to Hawaii, in 1896, \$4,184,351; and in 1906, \$12,430,955; to the Philippine Islands, in 1896, \$174,287, and in 1906, \$1,101,831; and to Alaska, an estimated value in 1896 of \$4,000,000 and in 1906, \$17,318,039; while in merchandise received from those territories the increase has been proportionately large.

The value of merchandise brought from the Hawaiian Islands to the United States is now about 30 times as great as in 1875, and the value of merchandise sent to the islands from the United States is also about 30 times as great as in the year immediately preceding annexation, and the value of merchandise sent to that island from the mainland is also 10 times as great as in the years immediately preceding annexation, less than a decade ago! In these cases, where the United States has become a large purchaser of the products of these tropical islands, their production has been stimulated, and they have in like degree increased their purchases of manufactures and foodstuffs from the United States.

ABRAHAM'S TITLE DEEDS

Cheops, who built the pyramid, was a man of little foresight; he had no notion with what a microscope the historian of the present day would go over the past. His pyramid was a quite superfluous piece of ostentation. If he had been content to bury himself as a modest man should, with a temperate epitaph on an inconspicuous headstone, recording his virtues in conventional language, history or archaeology would have found him out just as surely as under his monstrous pile of stones, the Egyptian taxgatherers would have had a well earned vacation of several years and the good common people of Egypt, freed from their usual labor of pyramid building, would have blessed him as the most benign of despots. But Cheops wanted to feel sure that the world would not forget him, and he couldn't foresee the modern archaeologist.

That scientist with a microscope eye for the unconsidered trifles of the past will rake the scrap heaps of obscurity. We read in the cable dispatches how Sir William Ramsay, apparently not the chemist, is going to spend five years looking for the title deeds of Abraham's farm or cemetery lot, the dispatches are not clear which. It seems in those days, nearly four thousand years ago, they used to write their title deeds on bricks and file them away in a temple, the ancient register's office. Sir William Ramsay is going to comb the land of

the Hittites for that brick, a very much smaller obstacle to oblivion than a pyramid, but even a brick filed in unknown archives four thousand years ago, and now in one of the buried strata of civilization, offers no particular difficulties to a painstaking archaeologist. If Cheops had only known, he might have saved his money, have bought a brick instead of a pyramid and now be the hero of an exploring expedition.

When Abraham's brick is found there are certain other similar documents of ancient history for which science may search. There is the bill of lading which Noah carried on his famous cruise. That would make interesting reading now. Then, to go back further, there is that whispered scandal about Adam, that he deserted an earlier wife to marry Eve. Some one should look for Lillith's marriage certificate. So safe is it to place confidence in archaeology that mere negative evidence, failure to find the document, would clear the reputation of our first parent.

The tobacco men are up in arms against the ruling of the Internal Revenue department which causes them to make report of every bale of tobacco received and to take out separate licenses for each storage warehouse for tobacco. They claim it is unjust and a hardship that is being forced upon them for some unknown reason.

Senator Knox, one of the legal minds of the United States Senate, has come out strongly in defense of Reed Smoot, the gentleman from Utah, whose seat numerous societies have been seeking to obtain. Knox knows what he is talking about and should be listened to with care.

There appears to be no lack of patriotism displayed this year in seeking public office. Scores of would-be servers of the public weal are in evidence and the gum-shoe campaign is progressing rapidly.

The state legislators are in arms over the drunkenness of students and threaten to put a rider upon the University appropriation that Madison saloons pay a five-hundred-a-year license.

A University graduate whose disappearance years ago caused a commotion throughout the University circles has been discovered working as a common laborer in an obscure Indiana town.

Milwaukee papers are able to keep their city in prominent positions by publishing stories of Mayor Becker as they were when Dave Rose was the presiding genius.

Interesting data could be obtained by a careful analysis of the feeling of local politicians on the mayoralty fight.

The death of one of the Thaw jurors has caused a delay in the famous or infamous trial and it is possible that a mistrial may result.

These February thaws cause lots of sickness, but just the same it is a great relief from the extreme cold of the past few weeks.

It will soon be time for the spring froshet and for the oldest inhabitant to remember how high the water was sixty years ago.

PRESS COMMENT.

For Goodness Sake, Forbear!
Milwaukee Sentinel: So Senator Rayner is "preparing to reopen the Schley case." Can't the man think of anything else to do?

Iconoclast Craves Sympathy.
Geo. Grassie in Evening Wisconsin: It takes a whole lot of nerve to don't care a damn out here in Madison. Pray for me.

Surfeitious Tapping.
Evening Wisconsin: The Whitehead bill making the theft of gas and electricity larceny should be passed, as these conveniences of modern life can easily be stolen by the underground tapping process, or in the case of electricity by simply making a surreptitious connection with a wire leading from a conduit, or from a pole.

And the Nebular Hypothesis.
Exchange: In putting his hypothetical question to the expert witness Thaw's attorney forgot to incorporate the ten commandments, the declaration of independence and the major portion of the Congressional Record.

Too Fastidious.
Superior Telegram: The people of Milwaukee are very particular what they eat. The other day a Milwaukee baker was arrested and fined because he allowed a mess of kittens to be born in his flour barrel.

Two Hour Impossibilities.
Kansas City Star: Palpably spurious is the claim of a Boston man that he has discovered a method for producing an exact counterfeit of the best grade of maple sugar. It would be no more possible to counterfeit real maple sugar than it would be to develop even a plausible imitation of a Boston man.

Cities to Regulate Phone Charges.
La Crosse Tribune: Senator Ruml of the Wisconsin legislature has introduced a bill giving to cities the power to fix their own telephone rates. The measure has much to recommend it, if means be provided to accurately base the rates established upon fair earnings for capital invested. Such a law, if abused, would be bad. Under proper conditions it

would afford great relief to the public.

Cheap Cussedness.

Chicago News: It is useless and superfluous for us to tell the comic valentine to do its worst. It will do that without any printed directions. If there is any superlative degree located beyond the limit that is where the comic valentine lives when it is not taking liberties with art which will warrant interference from the police.

Nobody who ever lived on this earth looked like a comic valentine and we have too much consideration for the inhabitants of Mars to intimate without positive proof to that effect that they may look like this particular offense to art. The comic valentine has but one use and that is a base one. It gives the man who is too mean to spend more than a cent a chance to show how mean he really can be for that amount.

"He Had To Acknowledge The Corn."

The other day a dental traveling man was in to see Dr. Richards to sell him some goods.

In visiting together the Doctor showed him some of the beautiful work he is putting out among his patients and asked him point blank.

"In your visits among other dentists here do you see any such beautifully finished work as I am doing?"

Of course the traveling man hesitated saying much considering the fact that he sold goods to all the dentists in the city.

But he did acknowledge that this work was more finely finished than any he had seen in Janesville.

"Now the specimens shown him were not special cases but just regular finished work the same as Dr. Richards gives everybody."

You can fairly see your face reflected so fine in the polish he puts on his rubber plates. Now all this means extra work.

Extra care taken to give you the best there is.

And his prices are another attractive feature.

His patients never feel like calling him Dr. Big Fee.

FORMER RESIDENT STRUCK BY ENGINE; TERRIBLY INJURED

W. H. Whalen, One Time North-Western Foreman Here, Reported in Critical Condition.

Word has been received from Chicago that W. H. Whalen, formerly foreman at the Janesville roundhouse and shops of the Chicago & North-Western Railway company, is in a critical condition as the result of being hit by an engine. It is reported that he was hurled against a switch and sustained a terrible wound in the head and internal injuries that may in all probability prove serious. Fourteen stitches were necessary to close the scalp cut. Mr. Whalen left here several years ago, being transferred to Baraboo. From there he went to North Fond du Lac and has lately been stationed at Boone, Ia. His many friends here will hope for his speedy recovery.

ONE SMALL BASS IS THE EVIDENCE

To Be Offered Against Charlie Lumm—Three-Inch Cadaver of Murdered Fish Preserved in Alcohol.

Officers were busy this afternoon securing a jury to try the action of the State vs. Charlie Lumm of Lake Koshkonong, charged with unlawfully having an undersized bass in his possession. Lumm has retained Atty. L. E. Gottle of Edgerton as his attorney and will fight the case to a finish. Deputy Game Warden Peter Draht is the principal witness for the prosecution and the chief evidence is the infant bass itself, which, with care, may be distinguished by an expert from the score or more carp, sunfish, and other minnows in whose company it was seized and with whom it is now sharing an alcohol bath in a glass fruit-jar. District Attorney J. L. Fisher represents the prosecution. Both sides were looking for some fisherman who could tell the difference between a baby bass and a baby shiner.

CLEARING SALE OF MEN'S FURNISHINGS

Over \$12,000 Worth of Men's Apparel to be Sold at Sacrifice Prices by Ziegler Clothing Company.

As our big announcement in last evening's paper stated, we find ourselves about four weeks prior to inventory taking, with over \$12,000 invested in men's and children's furnishings, a stock of the very highest class, such as this store has a reputation for handling. The question of reducing this enormous stock is a big one but we have confidence enough in the public's keen perception to believe they will appreciate true bargains and also believe that this store's reputation for doing exactly as advertised, will aid materially in cutting down the furnishings several thousand dollars in very short time. We have put cost prices on everything, less than cost on many articles, and half original cost on some items. You can buy at the sale prices umbrellas, hosiery, gloves, mittens, shirts (dress, street, work), pajamas, underwear (union and two-piece), sweaters, Jersey coats, jacket, golf coats, golf vests, fancy vests, house coats, bath robes, handkerchiefs, suspenders, neckwear, trunks, valises, satchels, suit cases, telescopes, etc., in fact most anything that men wear at prices less than were ever put on goods of like value in this part of the country. We never have thrown open our entire stock to you at a like sale and only do so now because we must clear out some of the goods. Bear in mind this fact, every article advertised (see yesterday's paper) is of the highest grade, not cheap or trashy. It has the quality and reputation of the country's best makers; every item has our guarantee back of it. Goods are marked in plain figures and our show windows will be filled with the articles offered, all bearing plain prices. Our advice is to come early while the stock is large and presents an unbroken front, the early purchasers always secure the pick. Of all things don't fail to come.

EACO FLOUR

Start the Saturday order with a sack of EACO flour.

We eat more bread than anything else and it certainly can't be too good—the better the better.

The Flour costs a trifle more but we doubt if the Bread does, because this flour makes more loaves of bread per sack.

It's always the same, too, always all right, and uniformity is the most important point next to quality itself.

It's fine flour and something you should know about.

BACON AND TILLMAN START FILIBUSTER

FORCE DELAY ON IMMIGRATION BILL AGREEMENT.

RESENT HASTY ACTION

Senator Knox Defends Reed Smoot's Right to Seat—House Labors with the Naval Bill.

Washington, Feb. 15.—The sudden development of a full-fledged filibuster resulted Thursday in the senate when an attempt was made to force the adoption of the conference agreement on the immigration bill. This report carries a provision intended to aid in the settlement of the California-Japanese problem and speedy action was desired by administration senators.

Expressing sympathy with this object, yet regarding the report with suspicion on other points, Senators Bacon and Tillman first endeavored to have action delayed until Friday that they might study the report. When this was refused the filibuster began. Mr. Bacon held the floor for two and a half hours. Mr. Tillman remarked that he was preparing to make a ten-day fight on the floor against the report, because he objected to being run over as with an automobile.

Mr. Bacon objected that the report changed existing law in respects which, he believed, on hurried examination, would deprive southern states of obtaining even the meager supply from abroad which was available under the present immigration laws.

A truce was declared until Friday at the suggestion of Senator Spooner, when the report will again come up for consideration.

Administration senators interested in the adoption of the report were alarmed by apparent Democratic hostility. All of the Democratic leaders when questioned as to their attitude disclaimed the adoption of a party policy in regard to the report, and the senators making objections insisted that they were actuated wholly by resentment of what they thought was an attempt to force immediate action.

Knox Defends Reed Smoot. The session was begun with an extended address by Senator Knox in defense of the right of Reed Smoot to his seat as senator from Utah. Mr. Knox received from his colleagues congratulations on his speech.

The agricultural appropriation bill was taken up for consideration. Difficulties arose over a proposed increase in the salary of the chief of the forestry bureau. Senator Hale facetiously noted the "towering importance" of the agricultural department in comparison with other departments of the government, and called attention to the \$4,500 salary of the assistant secretary, saying it was proposed in the bill to increase that of the chiefs of several bureaus to \$5,000.

The naval appropriation bill occupied the entire time of the house Thursday, and it was almost completed. The single remaining section is that increasing the naval establishment. It was allowed to go over until Friday, when it is expected an effort will be made to reduce the number of battleships provided for in the bill.

FOUR BURNED TO DEATH.

Children Lose Lives in Blazing Home in Delaware.

Bridgeville, Del., Feb. 15.—Four children, ranging in age from two years to ten, belonging to L. Johnson, near here, were burned to death Thursday in a fire which destroyed their home. The family was asleep on the second floor when fire, which started on the first floor, was discovered. The flames had gained such headway that only Johnson and his oldest child managed to escape by jumping from a second-story window.

The father made an attempt to rescue the four children, but was unable to enter the house as it was entirely in flames. Mrs. Johnson, the mother of the children, was at the home of a neighbor when the fire started.

Oleomargarine Law Upheld. Jefferson, Wis., Feb. 15.—Judge Grimm of the circuit court Thursday, in the case of the state against F. A. Meyer and others, involving the constitutionality of the state oleomargarine law, denied the defendants' motion for direction of a verdict in their favor, holding that the law is constitutional. The jury brought in a verdict for the state.

Woman Accused of Embezzling. Philadelphia, Feb. 15.—Miss Flora Steipel, a cashier in the employ of N. Sneltenburg & Co., owners of a big department store in this city, was arrested Thursday charged with embezzling funds of the company to the amount of \$25,000. She was sent to prison in default of \$10,000 bail for a further hearing on February 20.

Mother and Babe Burn to Death. Pontiac, Miss., Feb. 15.—Vainly endeavoring to extinguish flames which enveloped her infant son, Mrs. Charles Mauldin was burned to death at her home near here Thursday. The baby also died.

Infant is Burned to Death. Mt. Vernon, Ill., Feb. 15.—The infant son of Alex. Dale of Bonnie was burned to death Wednesday night. An older child set fire to the crib in which the little one was sleeping.

JONATHAN FITCHETT HAS PASSED AWAY

Jonathan Fitchett, an aged and well known resident of Janesville, died shortly before halfpast three this afternoon, the demise occurring at his home, 159 Milton avenue. Among the surviving relatives are a son, J. T. Fitchett, and a stepson, Dr. B. F. Woods.

Mrs. Eliza C. Bleasdale. Funeral services over the remains of the late Mrs. Eliza Bleasdale were held from her home in the town of Janesville at one o'clock this afternoon. Rev. R. C. Denison, who officiated at the obsequies of the deceased's son, Ralph, two months ago, delivered the sermon and the choir, which sang on the same occasion lead the song service today. The quartet was Fred Denis, A. Wiggins, Mrs. Bert Silverthorn and Miss Dollie

MRS. ELIZA C. BLEASDALE.

Strang. As many of the same pall-bearers as were able to be present consigned Mrs. Bleasdale's remains to their last resting place in Oak Hill cemetery. They were W. E. Shoemaker, E. W. Little, Frank Welch, Walker Little, Percy Magee and James Flaherty.

The surviving children—Frank T. Bleasdale, of the town of Janesville, John W. Bleasdale of Chicago, Mrs. Frank Case and Mrs. Orvie Case, both of Clarion, Iowa, and Mrs. Charles E. Hawk of the town of Center—were in attendance at the funeral today and with many loving friends paid last tribute to the remains of their mother, whose life has been one of noble devotion to home. Fifty-six of the four score years in that life were spent on the farm where the demise occurred. Born in Perth, Scotland, October 20, 1826, married at Leis, England, March 2, 1849, she with her husband came to the town of Rock during the summer of the last named year. There they remained until 1852, when the removal to the town of Janesville was made. Since then many changes had taken place about her. Open prairies and wooded hills, which were the haunts of deer fifty years ago, have disappeared and cultivated fields stretch in every direction. Log houses which sheltered the early pioneers have given place to pretentious and more comfortable homes. The old neighbors have gone beyond or moved away and of the residents in the country west of the river it is doubtful if there are more than three or four who remember Mrs. Bleasdale as the little English woman who came to live among them in those rugged days.

NEWS IN A NUTSHELL.

HUGE OIL TANK BLOWS UP.

Explosion of Plant in New Jersey Mistaken for Earthquake.

New York, Feb. 15.—With a roar that was plainly above the street noise of the city, a huge oil tank in the Standard Oil company's storage at Constable Hook, N. J., exploded Thursday. So great was the concussion that windows more than a mile distant from the scene were shattered and buildings many miles away were shaken so severely that many believed that the disturbance was caused by an earthquake. Fortunately the tank which exploded was an isolated one and only three persons were injured and they only slightly. These were workmen who were fighting a fire which had started near the tank.

Chinese Try to Bribe Honolulu Official. Honolulu, Feb. 15.—Chief of Detectives Taylor has been offered \$1,400 a week by an association of Chinese gamblers for their protection and to secure them a monopoly of gambling in Honolulu. The chief accepted a payment to bind the agreement, in order to secure evidence against the would-be bribers.

Grew This Hair

AND WE CAN

PROVE IT.

Latest Photo of FRANCES MARIE KNOWLTON. Age Four Years. 980 Garfield Boulevard, Chicago.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.

This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.

Danderine makes the scalp healthy and fertile, and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 25c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

NOW at all druggists, in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE. To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the **Knowlton-Danderine Co., Chicago**, with name and address and 10 cents in silver or stamps to pay postage.

A GOOD INVESTMENT

Did you ever stop to consider that a small amount spent in fitting your house for electric light appliances would bring excellent results? First, in the improvement of the house itself; second, in the saving of wall paper, curtains, etc., from the soot and dirt of gas or kerosene; and third, in the convenience, cleanliness and safety which electricity affords.

May we hear from you on this subject which means so much for the comfort and welfare of yourself and family?

Make Each Cow Earn \$10 Per Year More For You.

THE IOWA CREAM SEPARATOR will pay for itself in one year's time with a herd of 10 milkers. Each cow will yield \$10 per year additional, that is the saving in cream with the use of the Iowa will make this amount extra per head. These are not claims, they are facts, actual facts. The Iowa won the gold medal at the St. Louis Fair, is made in the largest separator factory in the world—it will

skim either cold milk or warm, equally as well.

This point is important to you. The Iowa is the highest grade machine piece by piece of any separator manufactured. We handle 3 sizes:

No 2—400 lbs. capacity—Price.....\$75

No 3—500 lbs. capacity—Price.....\$85

No 4—700 lbs. capacity—Price.....\$95

Any man who milks 6 cows or more in justice to himself should know about the Iowa Separator. Sold on a year's guarantee. — We are distributing agents for Rock County.

What About That Harness?

We are turning out more strictly hand bench made harness double and single than ever. Quality first then the price, we make both of them—Interesting enough, to sell 10 out of every 12 persons who have harness needs.

A GRAND CLEAN UP OF

Ready-to-Wear Garments---Cloaks, Suits and Skirts

The cash in the till takes up less room than the garments on the racks. This is our excuse at this season of the year for the sweeping price reductions on READY-TO-WEAR GARMENTS. It's a good logical excuse and when the lots offered fill your present needs, then is your opportunity to make your dollars do their full duty.

Fur Coats for Women--Our present stock consists of about 25 reliable fur coats as follows:-- We mention the regular selling prices, at which we have held them all the season, but now we offer them at a reduction of 8 to 30 dollars. **Fine Nearseals** at \$35 to \$85; sizes 34 to 46. **Wool-Seal Auto Coats** at \$65. One Beaver Coat, size 40, at \$125. One Otter Coat, size 36, at \$185. Surely a better opportunity was never presented to purchase a nice fur coat at such a small price.

Cloth Cloaks--We offer all of our best garments at 1/2 price. We have but a few black cloaks left, but emphasize particularly the beautiful light cloaks, many suitable for spring wear, in tans, mixtures, plaids and checks. These desirable cloaks at 1/2 price merit the attention they are receiving.

500 Suits, Black Mostly--Never were better suits put on sale at \$5.00. Women are buying them eagerly and are thoroughly pleased. These suits are the same that only a few months ago were \$10 to \$18. The styles are good; simply a matter of getting fitted. Don't forget about these suits, for they are bargains worthy of the name, and will help out many a woman anxious to economize.

Skirts at \$2.00--We have about 15 left, that we are closing out to make room for spring arrivals; values up to \$12.00.

Probably 90 Altogether--We have two racks of winter cloaks, carried over from 1904 and 1905--cloaks for women, misses and children, and during our January sale we marked them at prices ranging from \$1 to \$10, which were low indeed for the grade of garments. However, to sell out every garment before spring, as we need the room badly, we offer them now at 1/2 of the marked down figures. Just think of buying 50c, \$1.00, \$1.50, \$2.00, \$2.50, etc. well made cloaks at such prices as...

95 Gray Wool Skirts--A manufacturer had on hand a quantity of gray all wool cloths and we figured with him to make the lot up into skirts, which he and at a price which enables us to offer them, assorted styles and qualities, waist bands 22 to 36 inches, lengths 39 to 43 inches, at \$5.75. Any woman looking for a good sensible skirt for service should remember this lot at \$5.75. Alterations free.

Satisfied customers are the best advertisement a store can have. We have made many sales on ready-to-wear garments through satisfied customers who have told their neighbors about the bargains they got at THE BIG STORE.

THE BIG SALE GOES ON

Jewelry of the Highest Order at Auction ---A Novelty That Draws the Crowds.

There is about \$40,000.00 in this big stock of the old established firm of F. C. Cook & Co., which is offered to you at public sale without holding back a single item. We refer to Mr. Cook personally and any person buying an article here who does not feel that it is exactly as represented can find out by calling on Mr. Cook and securing his opinion. **Every article in this richly assorted stock is to be sold.** The crowds that have been in daily attendance have secured wonderful bargains and there are plenty yet for you all to buy from as freely as you desire.

Watches, Clocks, Solid Silver, Plated Silver, Rings, Pins, Bracelets, Diamonds, Brooches, Cuff Buttons, Silver Pieces, Toilet Sets, Cut Glass, Umbrellas, Carving Sets, Etc., Etc.

It has been intimated in some quarters that this stock is largely not that which was formerly F. C. Cook & Co's. We wish to say that every Watch, every Ring, every Diamond, every piece of gold and gold filled jewelry in our store is from the original stock of F. C. Cook & Co., a fact that can be ascertained easily by conversing with Mr. Cook. We guarantee to do just as we advertise and want you to know that this sale is not a catch penny, cheap, trashy affair.

Upon request, at any time during the sale any special article desired will be placed upon sale. All you need do is to ask for it.

SPECIAL NOTICE TO LADIES--Each day we shall offer articles of especial interest to the ladies and we particularly invite them to attend the afternoon sales. Come early and secure beautiful articles or rare gems at extremely low prices.

Sale opens Daily at 2:30 and 7:30 P. M., and will continue until goods are disposed of.
